index – volume 42

Subject index

Communications
ITU aids Bosnia 44
Pricing the ether, by W. Webb and P. Marks 57
TETRA goes mobile 82
Something in the air 128
Fibre ring around London, by A.J. Morant 127
The listening phone, by J. Talintyre 151
The other communications revolution, by P. Whitehead 167
BT and Apple aid for ambulances 218
Thin client takes on PC 218

Computing and control
Working the Net 2
The team that can't lose in Euro 96 4
Come clubbing 6
Software agents, by N. Jennings and M. Wooldridge 17
Spinning the Web, by R. Dettmer 28
Natural LightStorm for client/server computing 44
Fast talk from Tandem 44
Doing something useful – interview with D. Michie by R. Dettmer 49
Data management 82
Unauthorised surfing costs 82
Forecourts aim for connectivity 82
Java manages CATV networks 83
Massive attack on the weather 126
Electricity meters controlled remotely 126
Microsoft and Tandem to promote Windows NT server
Treating plants as individuals 128
Novel IT awards 128
The millennium bug, by P. Ainsworth 140
Netspeak, by T. Farrell 143
Software 2000 176
CRIS takes the plod out of policing 219
A smoother life on the ocean waves 220
The iconoclast – interview with I. Aleksander by R.Dettmer 227

Electronics
LCDs come out of the notebook 2
It's all done with mirrors 4
Swing low 42
New developments at Nepcon 44
SHARC infested electronics 42
Laser crams in more info 82
Race to detect landmines 83
Ion beam probes the surface 83
Watching how you drive, by W. Fincham 97
Deterring the chip thieves 126
Shop front 127
A solid switch 128
Olympic cash 130

Energy and the environment
'Green Cat' plans all-electric circumnavigation 2
Change and decay ? – interview with R. Jeffrey by R. Dettmer 14
Redistribution of power, by E. Jennings 33
PV centre opens 42
Gleam in the North, by R. Dettmer 64
Has wind power converged?, by D. Swift-Hook 72
Fossil fuel station limits 83
Solar energy sees the light 127
Nuclear plant upgraded 130
No regrets – interview with M. Archer by R.Dettmer 148
CHP at the BBC 176
Nestlé plant wins CHP awards 178
Wheeling and dealing, by P. Lewis 196
Revised pricing to benefit customers 220
Help with the energy bill 222
Dashing Didcot, by R. Dettmer 252

Management and education
Business sans frontières ? Cultural diversity and the engineer in Europe, by V. Merk 37
A lesson in industrial survival, by W.S. Jones, D. Lightie and A. Howard 75
Unauthorised surfing costs 82
R&D – a centre for profit, not cost, by J.C. White 103
Action Japan 220
Questionnaire to probe 2000 awareness 220
Research comes in from the cold, by S. Ablameyko 231
Leadership challenges in an engineering environment, by R. Hawley 234

Manufacturing and design
Data management 82
Water analysis on tap, by G. Sprigings 92
R&D – a centre for profit, not cost, by J.C. White 103
A week for manufacturing 176
Putting the heat on radome flaws 178
Teamworking wins the relay race, by R. Pannell 199
Manufacturing: the competitive challenge, by R. Page 202
Putting right seventeen years of neglect, by M. Beckett 204
Exhibiting EMC compliance 206
It's good to talk ... about EMC 208
Industry centre to help solve design problems 222
Lab offers fibre calibration 222

New technology
It's all done with mirrors 4
PV centre opens 42
Gleam in the North, by R. Dettmer 64
Laser crams in more info 82
Motor achieves 3% energy savings 83
Fuel cells come down to earth, by J. Larminie 106
Car uses hydrogen-oxygen fuel cells 130
Conjugal lights, by R. Dettmer 135
The listening phone, by J. Talintyre 151
Only connect, by R. Dettmer 186
Look, no glasses, by D Ezra 187
The latest in vehicle security 218
Holography prevents noise pollution 220
Software for satellite mission control 220
Blue-purple laser operates at room temperature 222
Looking down on the farm, by C. Pryor, R. Harris and J. Williams 238

Politics, social impact and history
Wheeling and dealing, by P. Lewis 196
Forward into space 178
The 70-year hitch, by J. Podoski 160
Geography and security, by J. Walmsley 6
Redistribution of power, by E. Jennings 33
Profit and loss, by D. Helm 47
Doing something useful – interview with D. Michie by R. Dettmer 49
Pricing the ether, by W. Webb and P. Marks 57
The European Social Chapter, by T. Lord 62
Has wind power converged ?, by D. Swift-Hook 72
A lesson in industrial survival, by W.S. Jones, D. Lightie and A. Howard 75
Kindly light, by R. Acock 94
Industrial cryptography, by R. Anderson 118
The millennium bug, by P. Ainsworth 140
No regrets – interview with M. Archer by R. Dettmer 148
Manufacturing: the competitive challenge, by R. Page 202
Putting right seventeen years of neglect, by M. Beckett 204

The profession
Business sans frontières ? Cultural diversity and the engineer in Europe, by V. Merk 37
Faraday is not the question ..., by J. Taylor 213

Transport and infrastructure
Changing track – moving-block railway signalling, by M.J. Lockyear 21
The 70-year hitch, by J. Podoski 60
Simulating high-speed cable wear 126
System helps drivers dodge delays 128
Car uses hydrogen-oxygen fuel cells 130
Highway control, by B. Williams 191

Author index

Ablameyko, S.: Research comes in from the cold 227
Acock, R.: Kindly light 94
Ainsworth, P.: The millennium bug 140
Aleksander, I., with Dettmer, R., see Dettmer
Anderson, R.: Industrial cryptography 118
Appleby, T.: AEI transistors (letter) 66
Archer, M. with Dettmer R., see Dettmer
Beadle, D.G.: Weighty question (letter) 247
Beckett, M.: Putting right seventeen years of neglect 204
Blay, A.G.: Efficiency is the answer (letter) 139
Buckley, J.F.: London number change (letter) 246
Carter, E.B.: Nuclear's future (letter) 138
Davis, C.: Electronic books (letter) 66
Dean, J.P.: Act locally to reduce CO_2 emissions (letter) 139
Dell, H.: The paperless book (letter) 26
Dettmer, R., with Jeffrey, R.: Change and decay ? 14
Dettmer, R.: Spinning the Web 28
Dettmer, R., with Michie, D.: Doing something useful 49
Dettmer, R.: Gleam in the North 64
Dettmer, R.: Conjugal lights 135
Dettmer, R., with Archer, M.: No regrets 148
Dettmer, R.: Only connect 186
Dettmer, R., with Aleksander, I.: The iconoclast 227
Dettmer, R.: Dashing Didcot 252
Duncan, A.H.: Weighty question (letter) 184
Dunn, I.: Single-phase fault current calculations (letter) 184
Elfer, G.S.: Energy policy (letter) 26
Ezra, D.: Look, no glasses 187
Fairbairn, A.G.: The magic word – 'manager' (letter) 247
Farrell, T.: Netspeak 143
Fincham, W.: Watching how you drive 97
Fletcher, D.: Energy policy (letter) 26
Flux, R.W.: Nuclear energy (letter) 246
Green, K.H.: Electronic books (letter) 66
Harris, J., Pryor, C., and Williams, J., see Pryor
Hawley, R.: British Energy (letter) 122
Hawley, R. : Leadership challenges in an engineering environment 234
Helm, D.: Profit and loss 47
Hunt, J.C.R.: The Met. Office replies (letter) 246
Irwin, R.P.: The paperless book (letter) 26
James, C.: Investing in people (letter) 138
Jeffrey, R., with Dettmer, R., see Dettmer
Jenkinson, B.: Effective forecasts (letter) 184
Jennings, E.: Redistribution of power 33
Jennings, N., and Wooldridge, M.: Software agents 17
Jones, W.S., Lightie, D. and Howard, A.: A lesson in industrial survival 75
Larminie, J.: Fuel cells come down to earth 106
Lawson-Smith, P.: Lightning strikes to belltowers (letter) 138
Le Grove, R.: Weighty question (letter) 247
Lemco, I.: Birth of the box (letter) 66
Lewis, P.: Wheeling and dealing 197
Lockyear, M.J.: Changing track 21
Lord, T.: The European Social Chapter 62
Luscombe, E.W.: The trouble with turbines (letter) 122
Marks, P., and Webb, W., see Webb
Marshal, J.: Changing track (letter) 122
Masding, H.: Privatisation of Nuclear Electric (letter) 67
Meredith, A.: Why wait to enter management ? (letter) 184
Merk, V.: Business sans frontières ? 37
Michie, D., with Dettmer, R., see Dettmer
Miles, G.C.M.: British Standard keeps bellringers safe (letter) 123
Moore, T.: Visible light from frequency mixing (letter) 246
Morant, A.J.: Fibre ring around London 127
Page, R.: Manufacturing: the competitive challenge 202
Pannell, R.: Teamworking wins the relay race 199
Parton, K.: Single-phase fault current calculations (letter) 247
Podoski, J.: The 70-year hitch 160
Pryor, C., Harris, R. and Williams, J.: Looking down on the farm 238
Roberts, G.: European Report 12, 79, 116, 171, 183, 230
Seruga, W: Breaking Enigma (letter) 138
Smith, K.C.A.: Science and technology debate (letter) 66
Sprigings, G.: Water analysis on tap 92
Steel, J.G.: 75 years of the ERA (letter) 26
Swift-Hook, D.: Has wind power converged ? 72
Swift-Hook, D.: Wind farms are popular (letter) 139
Talintyre, J.: The listening phone 151
Taylor, J.: Faraday is not the question... 213
Thompson, P.: Westminster Report 10, 55, 110, 157, 180, 237
Thorne, C.: The best job in the world (letter) 26
Tily, G.: Shocking clanger (letter) 27
Walmsley, J.: Geography and security 6
Webb, W., and Marks, P.: Pricing the ether 57
White, J.C.: R&D – a centre for profit, not cost 103
Whitehead, P.: The other communications revolution 167
Williams, B.: Highway control 191
Williams, J., Pryor, C., and Harris, J., see Pryor
Wilson, A.H.P.: Energy policy (letter) 26
Wooldridge, M. and Jennings, N., see Jennings

New products

ABB Control miniature circuit breakers 174
Adept Scientific Axum technical graphics 223
Advanced Products & Technologies UBM surface measurement system 131
Amplicon industrial PCs 174
Arcom standalone controller board 224
Ashley & Rock safety monitors 132
British National Space Centre video and CD-ROM 131
Cegelec Products software-re-addressable switch 90
Data Translation data acquisition board 132
Deneb Virtual NC software 8
Division dVISE software 174
Electro Mechanical Systems motors 8
FET Electronics FE 20100 LAN transmitter/reciever ICs 223
GE Lighting fluorescent lamps 8
Gentech International mercury tilt senor 224
Gothic Crellon ALVT logic family 174
Harris Semiconductor WLAN chipset 8
Hexatec Systems SCADA software 132
Hitachi ROMless large RAM microcontrollers 175
Hitachi ferroelectic RAMs 224
IBM MPEG-2 encoder and decoder chips 90
Infolytica MagNet electromagnetic analysis software 131
Johnson Matthey Electronics thermocouple 174
Linfinity Microelectronics voltage regulator module 46
Merlin flight simulator 46
MicroCelsi temperature recording labels 46
Mitsubishi U120S inverter 175
Motorola 16-bit microcontrollers 132
Motorola DSP chips 46
Motorola VeComp processors 90
Nicolet Technologies Proview software 223
Oxford Semiconductor asynchronous serial communications engine 174
Parker Hannifin HLE linear actuator 223
PDE Toolbox for MATLAB 90
Racal Recorders dual-mode FM/DR channel 175
Rhopoint Systems radio telemetry module 131
Siemens Measurements adaptive meter 90
Silicon Graphics Cosmo software tools 8
Solarton surveillance and monitoring software 90
Solarton isolated measurement pod 224
Sun Microsystems optimised microprocessors for Java 46
Telelogic's SDT Cmicro SDL design tool 131
Tektronix TDS 510A digital storage oscilloscope 223
Virtual Photonics OPALS simulation package 132
VLSI Technology VISTA architecture 224
Yuasa lithium primary cell 90
